NYSIM's 50,000th Learner

In April, 2015, NYSIM logged it's 50,000th learner. This is but one of the many remarkable achievements since our opening in 2011. We are grateful to all who have made the New York Simulation Center a success. A very special thanks to the City University of New York and New York University Langone Medical Center for their foresight and financial support to make NYSIM possible.

Drager GT5400 Neonatal Ambulance Isolette

The GT5400 incorporates high performance components that are essential for the care of a neonate, including an incubator, ventilator, monitor, infusion pumps, all support equipment and more. This equipment was provided to us by Draeger and is available for use in your simulations.

- System meets global standards
- Real-time monitoring – provides continuous surveillance
- Seamless mechanical connectivity and compatibility with one system for helicopter, airplane, or land ambulance
- Flexible ventilation supports breathing, while an active humidity system reduces risk of lung injury

NYSIM IT Announcement

A new hotfix was recently deployed to SimulationIQ that has improved and stabilized the recording functionality at the center. Along with the hotfix, there were also other enhancements made to the configuration of our servers to help improve the performance for recording in the application. Please feel free to contact nysimIT@nyumc.org if you have any questions regarding this latest change.
