NYSIM Leadership Transition: Farewell to Dr. Grace Ng

This month NYSIM would like to say farewell to and celebrate the work of one of our esteemed directors, Dr. Grace Ng, PhD, RN. Grace is leaving NYSIM to pursue a new professional opportunity, but will always be a part of the NYSIM family. Grace has been instrumental in the development and expansion of NYSIM as the inaugural Health Professions Director beginning in 2011. We are grateful for Grace's contributions to the advancement of NYSIM's strategic vision over the last ten years. Grace has successfully increased the visibility and national reputation of NYSIM, and formed numerous strategic partnerships across CUNY and NYULH. She successfully oversaw the growth of key initiatives, including development and implementation of interprofessional education, simulation advisory councils, and scholarly projects. Grace is an expert in simulation education, and provided professional development in her NYSIM Instructor Course to over 600 learners. Grace's innovative efforts contributed greatly to the growth and integration of simulation at NYSIM, CUNY, and NYULH. Thank you, Grace, for your service, teamwork, and leadership. We will miss you!

As Grace embarks on the next phase of her career, NYSIM is recruiting for the Health Professions Director position at NYSIM. Anyone interested in the position should reach out to Katie Tame at Katherine.Tame@nyulangone.org for further information.

NYSIM Highlights: Updates to Website Inventory

NYSIM is glad to highlight an updated inventory listing on our website. We have divided our educational equipment into manikins and task trainers. Manikins are generally high fidelity, and are used to simulate a variety of clinical scenarios. Task trainers are often lower fidelity, and are useful for practicing key elements of a skill or procedure. Within the inventory are bulleted descriptions for each item along with photos and a link to view the manufacturer's website. We are hoping this new design will make it easier for faculty to view the equipment we have to offer, and consider using for their programs. Please take a look at our website via the link below!

*Enhanced safety protocols continue during COVID-19

News at NYSIM

The New York Simulation Center (NYSIM) is committed to supporting safe operations for all learners, faculty & staff.

Please note the following operational changes in order to support safe operating procedures:

1. *NYSIM will adhere to recommended individual numbers per space which are posted throughout the simulation center.*
2. *Group sizes larger than 9 require attendees to be 14 days or more past the completion of their COVID-19 vaccination series; no exceptions.*
3. *All individuals entering Bellevue Hospital (therefore NYSIM) will require a temperature check in the Bellevue Lobby. Individuals may also be required to complete a symptom check.*
4. *All individuals will be required to use hand sanitizer as they enter NYSIM, and continue to follow good hand hygiene while in NYSIM.*
5. *All individuals will be asked to practice social distancing when possible and remain at least six feet apart even when wearing masks.*
6. *Surgical masks must be worn at all times while in NYSIM, unless alone in a closed room.*
7. *All individuals will be asked to report directly to the simulation rooms, when possible. Social distancing is required while individuals wait in the lobby.*
8. *No food or drink is permitted. All individuals will be asked to store any food/drink in a locker, or throw it away.*

NYSIM will work with scheduled programs to adhere to the precautions above. If anyone has any questions/concerns they should contact NYSIM@nyulangone.org and leadership at NYSIM will respond promptly to the email.

*Thank you,
NYSIM Team*

NYU Langone Health

Everyone is required to wear a face mask, and maintain social distance of 6 feet from others.

A diagram showing two stylized human figures, one female and one male, standing on a horizontal line. A double-headed arrow between them is labeled "6 FEET". Both figures are wearing face masks.

Wear your face mask at all times in this facility.

Clean your hands often with soap and water or alcohol-based hand sanitizer. **Do not touch your face.**

Three icons: 1. A person wearing a mask with arrows pointing to the nose and chin, labeled "Cover your nose" and "Cover your chin". 2. A hand being washed with soap suds, labeled "Clean your hands". 3. A person touching their face with a red prohibition sign over it, labeled "Do not touch your face".
