NYSIM Highlights: New Educational Equipment

NYSIM is excited to highlight several new additions to our inventory of task trainers and simulation education equipment. Pictured below from top left to right are the following: Tracheostomy Care Manikin, Pressure Injury Care Model, Wound Care & Bandaging Model, Quad Canes, Foley Catheterization Trainers, Musculoskeletal (MSK) Knee Ultrasound Training Model, SimMom's Automatic Delivery Module, Wheelchairs, and an Ultrasound Guided Pericardiocentesis Trainer.

At NYSIM, we strive to meet all of our community's learning needs, and periodically acquire new tools to make that happen. Check them out! Please do not hesitate to contact us if your program would like to take advantage of these resources. To view a more complete list of educational inventory here at NYSIM, please see the following link to our website:

NYSIM Virtual Symposium: 7th Annual Hot Topics in Simulation Education

This month NYSIM is proud to report that our annual Hot Topics Symposium was successful, having been run for the second time entirely virtual. Thank you to all of the participants and panelists for such engaging conversation focused on best practices and innovations in simulation education. NYSIM is once again proud of the global reach of this symposium, this time with plenary and breakout sessions focused on developing debriefing expertise as well as peer coaching, creating and recovering psychological safety, designing and implementing virtual interprofessional education scenarios, the role of podcasting and online platforms to support a virtual community of practice in healthcare simulation, pearls and pitfalls in translational simulation, applying four-component instructional design to longitudinal simulation-based education, and how to use virtual OSCEs and simulation to improve care for transgender and non-binary patients. If you were unable to attend, or would like to review the plenary sessions, please see the following link to watch the recordings!

Upcoming Events at NYSIM

NYSIM is now offering
American Heart Association's (AHA)
ACLS, BLS & PALS courses!

Availability:

Monday-Thursday
Brooklyn, Manhattan Locations

Register, Course Schedule:

News at NYSIM

The New York Simulation Center (NYSIM) is committed to supporting safe operations for all learners, faculty & staff.

Please note the following operational changes in order to support safe operating procedures:

1. *NYSIM will adhere to recommended individual numbers per space which are posted throughout the simulation center.*
2. *Group sizes larger than 9 require attendees to be 14 days or more past the completion of their COVID-19 vaccination series; no exceptions.*
3. *All individuals entering Bellevue Hospital (therefore NYSIM) will require a temperature check in the Bellevue Lobby. Individuals may also be required to complete a symptom check.*
4. *All individuals will be required to use hand sanitizer as they enter NYSIM, and continue to follow good hand hygiene while in NYSIM.*
5. *All individuals will be asked to practice social distancing when possible and remain at least six feet apart even when wearing masks.*
6. *Surgical masks must be worn at all times while in NYSIM, unless alone in a closed room.*
7. *All individuals will be asked to report directly to the simulation rooms, when possible. Social distancing is required while individuals wait in the lobby.*
8. *No food or drink is permitted. All individuals will be asked to store any food/drink in a locker, or throw it away.*

NYSIM will work with scheduled programs to adhere to the precautions above. If anyone has any questions/concerns they should contact NYSIM@nyulangone.org. Leadership at NYSIM will respond promptly to the email.

*Thank you,
NYSIM Team*

NYU Langone Health

Everyone is required to wear a face mask, and maintain social distance of 6 feet from others.

A diagram showing two stylized human figures, one female and one male, standing on a horizontal line. A double-headed arrow between them is labeled "6 FEET".

Wear your face mask at all times in this facility.

Clean your hands often with soap and water or alcohol-based hand sanitizer. **Do not touch your face.**

Three icons: 1. A person wearing a mask with arrows pointing to the nose and chin, labeled "Cover your nose" and "Cover your chin". 2. A hand being washed with soap suds, labeled "Clean your hands". 3. A person touching their face with a red prohibition sign over it, labeled "Do not touch your face".
