NYSIM Comprehensive Simulation Education (NYCSE) Course

In November 2023, NYSIM partnered with NYUGSOM and AMPATH-Ghana to host the 5-day NYSIM Comprehensive Simulation Education (NYCSE) Course. AMPATH-Ghana, an esteemed group of physicians and nurses who oversee education for health professionals in Ghana, received extensive training on simulation-based education. The NYCSE course curriculum included: 1) simulation design, management and debriefing; 2) simulation administration; and 3) standardized participant case development and implementation; and 4) scholarship. At the end of the course, the participants were provided with the NYCSE Resource guide, complete with helpful resources to operate and manage their home simulation center. Thank you, AMPATH-Ghana, for selecting NYSIM as your resource for simulation-based education!

NYSIM Annual Report—FY2023

NYSIM is pleased to announce the release of our third Annual Report: The Annual Report accurately conveys our mission, vision and guiding principles by summarizing the impact of our Simulation, Standardized Participant, National Certification Courses, and Faculty Professional Development programs. This third edition highlights the hard work, resilience and culture of the NYSIM team. We thank every member of the NYSIM team for their invaluable contributions to actualizing our vision in making NYSIM the hub of simulation education in the health sciences at CUNY and NYULH.

NYSIM Presents at the International Meeting on Simulation in Healthcare (IMSH) 2024

NYSIM Directors, Drs. Joanne Agnant, Laura Penalo and Deepak Pradhan, attended the International Meeting on Simulation in Healthcare (IMSH) in January 2024. This annual scientific conference provides healthcare professionals with the tools and resources needed to advance their skills, impact change in delivery systems and practice, and to improve patient safety. Our directors facilitated an oral presentation titled: “Fundamentals of Simulation Education Course: Lighting the FUSE to Spark Simulation Practices”, which correlated seamlessly with the conference theme, “IDEA” (Innovate, Disseminate, Educate, and Advocate).

Additionally, Drs. Deepak Pradhan, Jordan Talan and Anthony Andriotis presented a hands-on workshop titled: “Applying Four-Component Instructional Design (4C/ID) to Longitudinal Simulation-Based Education”.

Two graduates of the August 2022 NYSIM Fundamentals of Simulation Education (FUSE) course also presented their posters at IMSH. Dr. Terry Lefcourt presented: “Simulation is an effective tool to train clinical teams on the management of agitated patients and family members in the Emergency Department”, and Dr. Nabil Abazaid presented their poster titled: “Simulation as a tool to upstand against micro aggressions in the Emergency Department.”

We are proud to see the successful outcome of our simulation-based education programs reflected in the posters that were presented. Congratulations to all of the contributors!

News at NYSIM

NYSIM welcomes new Standardized Participants to the team!

NYSIM employs 130+ per-diem Standardized Participants (SPs). Our SPs portray a wide variety of cases and roles, such as patients, family members, learners, and health professionals. They are trained to provide written and verbal feedback to learners at all levels. Our OSCE case library has approximately 350 SP cases, serving as a central resource to the education community.

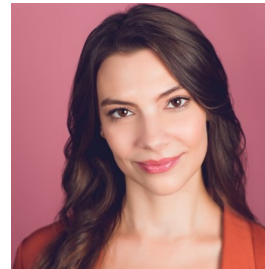

For SP contact information, submit a referral request here: <http://nysimcenter.org/standardized-participant-referral-request>

Teaching at NYSIM

If you are interested in holding a program at NYSIM, please see the link below to request a program: <http://nysimcenter.org/request-new-program>

Submit an education consult request to meet 1:1 with a Director who can answer questions, and help you develop your new or existing program! <http://nysimcenter.org/request-simulation-education-consult>

Comments, suggestions and questions to NYSIM@nyulangone.org are always welcome to create a better learning and teaching environment for our faculty and learners.

Upcoming Events at NYSIM

NYSIM Fundamentals of Simulation Education (FUSE) Course 2023-2024

The 3-day NYSIM FUSE Course is the ideal immersive experience for all levels of simulation instructors. The course focuses on simulation design, management, and debriefing. Logistically it functions as a workshop where participants will gain the tools to take a problem or issue germane to them, craft their own learning objectives for a simulation, write their own case scenario, create their own checklists of simulation performance, pilot their simulation, and engage in debriefing practice all while receiving feedback from a community of educators. Join us and help light the FUSE to spark your simulation-based education!

The course will continue to be held live and onsite at NYSIM. <http://nysimcenter.org/>

2024 FUSE registration is open

July 17 - 19, 2024, Wednesday through Friday—waitlist only

August 21 - 23, 2024, Wednesday through Friday—open seats

To register for an open seat or request a spot on the waitlist click the following link:

<http://www.nysimcenter.org/courses/instructor-courses>

You will be contacted by Porsche Scott (Porsche.Scott@nyulangone.org) to confirm your waitlist status. Please email Porsche Scott with any questions.

NYSIM Simulation-Based Education (SBE) Modules

NYSIM SBE Modules offers great opportunities to explore basic simulation-based education concepts, simulation modalities, simulation instructional design, and standards of best practices in simulation. To access the NYSIM SBE Modules, please visit: <https://nysimcenter.org/sbe>

News at NYSIM

The New York Simulation Center (NYSIM) is committed to supporting safe operations for all learners, faculty & staff.

Food and drinks are not permitted at NYSIM. Please remind your learners to refrain from bringing food to NYSIM, and ask them to store food and drink in their backpack or a locker. Thank you for your help in maintaining a clean environment.

Masks are now optional at NYSIM. The new masking safety guidelines have been updated to align with NYU Langone Health policy and reflect Department of Health recommendations. We will continue to make masks available at the front desk. We ask that anyone with fever, cough, or other flu and COVID-like symptoms not come to NYSIM.

Programs may elect to require masks for SP's, learners and faculty. This will be at the discretion of the program, and the responsibility of the program to communicate and enforce mask-wearing with the participants.

If anyone has any questions/concerns they should contact NYSIM@nyulangone.org. Leadership at NYSIM will respond promptly to the email.

***Thank you,
NYSIM Team***
